ABOUT INDIAN COUNSELLING SERVICES

Indian Counselling Services (ICS) was founded in 2020 by Mr. Somnath Sinha to address the growing need for mental health support and psychology education. Committed to accessibility, ICS offers practical psychology courses aligned with the National Education Policy 2020, empowering professionals, educators, and students. Beyond courses, ICS provides career counseling, free webinars, training programs, and mental health initiatives. Focused on holistic support, ICS strives to make psychology engaging, flexible, and impactful for all. Through education and awareness, we aim to foster mental well-being and equip individuals with the skills to support their communities.

PROGRAM CURRICULUM

 **Duration: 3 Months**

MODULE 1:

HYPNOTHERAPY (BASIC)

Basic Hypnotherapy introduces the foundational principles and techniques of using hypnosis as a therapeutic tool. It focuses on guiding individuals into a relaxed, focused state of awareness—known as a trance—where the subconscious mind becomes more open to positive suggestions, behavioral change, and emotional healing.

HYPNOTHERAPY BASICS: MIND MADE SIMPLE

- **Foundations of Hypnotherapy** – Brief introduction and essential concepts.
- **History & Evolution** – Understanding the roots of hypnosis.
- **Practical Applications** – Exploring real-life uses of hypnotherapy.
- **Mind & Myths** – Debunking misconceptions and learning the theory of mind.
- **Case Study & Discussion** – Applying knowledge through practice and group learning.

MODULE 2:

HYPNOTHERAPY (INTERMEDIATE)

Intermediate Hypnotherapy bridges the gap between basic skills and advanced therapeutic techniques. This level focuses on refining induction methods, deepening trance states, and developing more personalized scripts and interventions. Learners explore applications for stress reduction, habit control, confidence building, and mild anxiety or emotional blocks.

FROM SELF-HYPNOSIS TO TRANSFORMATION

- **Self-Hypnosis Techniques** – Relaxation, stress reduction, and personal mastery.
- **Guided Imagery & Visualization** – Harness the power of the subconscious mind.
- **Breathing Awareness & PMR** – Techniques for deep calm and emotional balance.
- **Applied Practice** – Case studies and real-life applications of hypnotherapy.
- **Collaborative Learning** – Group discussions and shared insights for deeper growth.

MODULE 3:

HYPNOTHERAPY (ADVANCED)

Advanced Hypnotherapy builds upon foundational skills to deepen therapeutic impact and address more complex psychological issues. This level focuses on advanced induction techniques, regression therapy, inner child work, parts therapy, and working with trauma, chronic pain, and deep-seated emotional patterns.

ADVANCED HYPNOTHERAPY: UNLOCK THE MIND

- **Hypnosis Techniques & Practical Inductions** – Learn advanced methods, inductions, and live practice sessions.
- **Guided Imagery & Script Writing**– Create impactful visualizations and therapeutic scripts.
- **Past Life & Age Regression**– Explore regression techniques for deep subconscious work.
- **Ethical Practice in Hypnotherapy**– Understand professional guidelines and responsible application.
- **Applied Learning & Discussions**– Engage in case studies, group discussions, and real-world applications.
