ABOUT INDIAN COUNSELLING SERVICES

Indian Counselling Services (ICS) was founded in 2020 by Mr. Somnath Sinha to address the growing need for mental health support and psychology education. Committed to accessibility, ICS offers practical psychology courses aligned with the National Education Policy 2020, empowering professionals, educators, and students. Beyond courses, ICS provides career counseling, free webinars, training programs, and mental health initiatives. Focused on holistic support, ICS strives to make psychology engaging, flexible, and impactful for all. Through education and awareness, we aim to foster mental well-being and equip individuals with the skills to support their communities.

INDIAN COUNSELLING SERVICES

OUR ACCREDITATIONS & RECOGNITIONS

UNICEF - UNICEF (United Nations International Children's Emergency Fund) is a UN agency dedicated to protecting and promoting the rights and well-being of children worldwide.

Vision & Mission

Our Vision

Our mission is to transform online psychology education by bridging theory and practice. We provide practical, accessible mental health training, empowering teachers, counselors, and professionals to enhance their skills and foster better mental well-being in their communities.

Our Mission

We envision a world in which everyone has access to the best online psychology courses, allowing them to obtain practical knowledge, understand human behavior, and make meaningful changes in their personal and professional lives

MESSAGE FROM COMPANY CEO AND FOUNDERS

Mr. Somnath Sinha
Co-Founder & CEO

Mr. Sanjay Sinha
Co-Founder & COO

Mr. Rahul Nakra
Co-Founder & Business
Head

At Indian Counselling Services, our mission is to empower individuals through high-quality counseling and psychology courses. As founders – Somnath Sinha, Sanjay Sinha, and Rahul Nakra – we are committed to shaping future professionals in mental health.

In today's world, the demand for trained counselors is rising. Our carefully designed programs provide theoretical knowledge and practical training to help students excel in this field. We believe learning should be accessible, practical, and transformative, ensuring that every student gains valuable skills to make a meaningful impact. With expert faculty and a research-based curriculum, we strive to set new standards in psychology education. Join us in our journey of learning, growth, and impact to build a future where mental health support is strong and accessible.

OUR TRAINERS

Mrs. ARPITA ROY

RCI licensed Clinical and Rehabilitation Psychologist, trained at the Institute of Psychiatry – Centre of Excellence, Kolkata. She holds a PGDRP from the University of Kolkata and has experience across neuropsychiatry clinics, de-addiction and rehab centers, schools, NGOs, and academic institutions. She has also served as a lecturer at the University of Kolkata.

"CLINICAL AND REHABILITATION PSYCHOLOGIST (RCI-Licensed)"

Aakriti Khosla

Aakriti is a Counselling Psychologist who has conducted over 500 sessions, impacting 1,000+ lives. She uses expressive arts, mandala work, and mindfulness techniques, and actively promotes mental wellbeing through workshops and awareness talks.

Participants will also engage in case studies and interactive activities to build confidence in working with children across diverse developmental stages.

Key Learning Outcomes:

- ✓ Foundations of child's growth
- ✓ Practical exposure to all applications
- ✓ children Mental Health & Burnout
- ✓ Educational & Emotional Productivity
- ✓ Psychology Assessment for Children
- ✓ Leadership & Conflict Resolution

PROGRAM CURRICULUM

 **Duration:** 5 Weeks (10 Sessions /1.5 Hours Each)

MODULE 1:

INTRODUCTION TO DEVELOPMENTAL PSYCHOLOGY AND THE ROLE OF A CHILD PSYCHOLOGIST

Developmental psychology is the scientific study of how people grow, change, and develop throughout their lives — physically, cognitively, emotionally, and socially. overall quality of life

It examines development across all life stages, but especially focuses on infancy, childhood, and adolescence, looking at how factors like biology, environment, and experience shape who we become.

MODULE 2:

UNDERSTANDING CASE HISTORY AND MENTAL DISORDERS IN CHILDREN

- A case history in psychology is a detailed record of a client's background, development, and presenting issues. It's used by psychologists to understand the client's life context and guide assessment and treatment.

- Mental disorders (also called mental illnesses or psychiatric disorders) are conditions that affect a person's thinking, feeling, behavior, or mood, often impairing daily functioning, relationships, or overall quality of life.

MODULE 3:

ASSESSMENT OF DISORDERS AND APPROACHES TO INTERVENTIONS

Assessment of mental disorders involves a comprehensive process to understand a person's emotional, behavioral, cognitive, and psychological functioning. It helps in making a diagnosis, planning treatment, and tracking progress.

Approaches to intervention in mental health refer to the various methods and strategies used to help individuals manage, reduce, or overcome psychological disorders and emotional difficulties. These approaches can be psychological, behavioral, pharmacological, or environmental, depending on the needs of the individual.

MODULE 4:

UNDERSTANDING INTERVENTION TECHNIQUES, AND ART THERAPY

Intervention techniques are specific strategies used within therapeutic approaches to help individuals manage and overcome psychological, emotional, or behavioral problems. These techniques vary based on the therapy model but share the goal of promoting mental health and well-being.

Art therapy is a form of psychotherapy that uses creative expression through art as a way to explore emotions, improve mental well-being, and enhance self-awareness. It's especially effective for individuals who find it difficult to express themselves with words alone.
