

Transform Learning. Foster Inclusion. Empower Every Child.

Join this certification program to develop the expertise needed to identify, understand, and support children with diverse learning needs while contributing to a more inclusive and compassionate educational environment.

"About the Program" and "Key Learnings" section for the Special Education & Learning Disability Certification Course:

About the Program

The basic **Special Education & Learning Disability Certification Course** is a comprehensive and practical training program designed to equip participants with the knowledge, skills, and confidence to support children with diverse learning and developmental needs. As awareness of inclusive education continues to grow, educators, counselors, psychologists, and parents play a crucial role in identifying challenges early and creating supportive environments where every child can thrive.

This program provides a strong foundation in understanding learning disabilities, neurodevelopmental conditions, child behavior, assessment techniques, intervention strategies, counseling approaches, and inclusive classroom practices. Through expert-led sessions, real-life case discussions, practical activities, and evidence-based strategies, participants will gain valuable insights into working effectively with children who require additional educational and emotional support.

Whether you are a teacher seeking inclusive classroom solutions, a counselor working with children, a psychologist expanding your expertise, or a parent looking to better understand your child, this course offers practical tools and professional guidance to make a meaningful difference in the lives of children with special needs.

Key Learnings

- ✓ Foundations of Special Education & Inclusive Education
- ✓ Understanding Learning Disabilities (Dyslexia, Dysgraphia & Dyscalculia)
- ✓ ADHD Awareness, Identification & Support Strategies
- ✓ Child Development, Emotional Growth & Behavioral Challenges
- ✓ Autism Spectrum Disorder (ASD): Characteristics & Classroom Support
- ✓ Early Identification of Learning and Developmental Difficulties
- ✓ Assessment, Observation & Documentation Techniques
- ✓ Intervention Strategies for Learning Disabilities
- ✓ Multisensory Learning & Remedial Teaching Approaches
- ✓ Counseling Techniques for Children and Parent Guidance
- ✓ Classroom Management & Inclusive Teaching Practices
- ✓ Real-Life Case Studies, Practical Activities & Role Plays
- ✓ Teacher–Parent Collaboration and Positive Reinforcement Strategies
- ✓ Career Opportunities in Special Education, Counseling & Child Development
- ✓ Practical Skills to Support Children with Special Needs Across Educational Settings

PROGRAM CURRICULUM

Duration: 5 Weeks (10 Sessions / 1.5 Hours Each)

SPECIAL EDUCATION & LEARNING DISABILITY CERTIFICATION COURSE

This comprehensive certification program is designed to provide participants with practical knowledge and professional skills required to understand, identify, assess, and support children with special educational needs. The course combines theoretical foundations, real-life case discussions, intervention strategies, counseling techniques, and inclusive education practices to prepare learners for educational, counseling, and support roles in diverse settings.

MODULE 1: WEEK 1

FOUNDATIONS OF SPECIAL EDUCATION & LEARNING DISABILITIES

Special Education focuses on providing individualized support and educational opportunities to children who experience learning, developmental, emotional, behavioral, or physical challenges. Understanding the principles of inclusive education helps educators and caregivers create environments where every child can learn and thrive.

This module introduces participants to the fundamentals of special education, common types of special needs, the role of educators and counselors, myths and misconceptions about disabilities, and an in-depth understanding of learning disabilities such as Dyslexia, Dysgraphia, Dyscalculia, and ADHD. Participants will also learn early identification techniques and warning signs that can support timely intervention.

Class 1:

- Introduction to Special Education
- Types of Special Needs
- Inclusive Education
- Role of Educators and Counselors
- Myths and Facts About Disabilities

Class 2:

- Understanding Dyslexia
- Understanding Dysgraphia
- Understanding Dyscalculia

- ADHD Basics
- Signs and Symptoms
- Early Identification Techniques

MODULE 2: WEEK 2

CHILD DEVELOPMENT, BEHAVIORAL CHALLENGES & AUTISM SPECTRUM DISORDER

Understanding child development is essential for recognizing when a child may require additional support. Developmental milestones, emotional growth, social skills, and classroom behaviors provide important insights into a child's overall well-being and learning journey.

This module explores developmental stages, behavioral challenges commonly observed in children, emotional difficulties, and strategies for understanding and supporting children with Autism Spectrum Disorder (ASD). Participants will gain practical knowledge regarding communication difficulties, sensory sensitivities, behavioral patterns, and classroom accommodations that promote successful inclusion.

Class 3:

- Developmental Milestones
- Emotional and Social Development
- Behavioral Challenges in Children
- Identifying Emotional Difficulties

Class 4:

- Understanding Autism Spectrum Disorder
- Communication and Social Challenges
- Sensory Processing Difficulties
- Classroom Support Strategies

MODULE 3: WEEK 3

ASSESSMENT, OBSERVATION & INTERVENTION STRATEGIES

Assessment and observation form the foundation of effective support planning for children with learning and developmental difficulties. Accurate identification of strengths and challenges enables professionals to develop meaningful interventions and educational accommodations.

This module focuses on observation skills, case understanding, documentation techniques, and intervention planning. Participants will learn evidence-based strategies including classroom accommodations, remedial teaching methods, multisensory learning approaches, and confidence-building techniques that enhance academic and emotional outcomes.

Class 5:

- Assessment and Observation Techniques
- Case Understanding
- Documentation and Reporting
- Educational Planning

Class 6:

- Intervention Strategies for Learning Disabilities
- Classroom Accommodations
- Remedial Teaching Approaches
- Multisensory Learning Techniques
- Confidence-Building Activities

MODULE 4: WEEK 4

COUNSELING TECHNIQUES & INCLUSIVE CLASSROOM MANAGEMENT

Children with special needs often require emotional support alongside academic assistance. Effective counseling and classroom management strategies help foster self-esteem, emotional regulation, and positive learning experiences.

This module introduces child-friendly counseling techniques, rapport-building skills, activity-based interventions, and parent guidance strategies. Participants will also learn practical methods for managing diverse classrooms, implementing inclusive teaching practices, strengthening teacher-parent collaboration, and utilizing positive reinforcement effectively.

Class 7:

- Counseling Techniques for Children
- Building Rapport
- Emotional Support Strategies
- Play and Activity-Based Approaches
- Parent Counseling Basics

Class 8:

- Classroom Management Strategies
- Inclusive Teaching Practices
- Teacher-Parent Collaboration
- Positive Reinforcement Techniques

MODULE 5: WEEK 5**PRACTICAL APPLICATION, CASE STUDIES & CAREER GUIDANCE**

Practical application is essential for developing confidence and competence in supporting children with special educational needs. Real-life scenarios provide valuable opportunities to apply theoretical knowledge and intervention skills.

This module focuses on case discussions, behavioral management exercises, activity planning, role plays, and professional development opportunities. Participants will explore various career pathways in special education, school counseling, learning support services, therapy assistance, and independent practice while consolidating their learning through final practical discussions and feedback sessions.

Class 9:

- Real-Life Case Studies
- Activity Planning
- Behavioral Management Exercises
- Group Discussions
- Role Plays

Class 10:

- Career Opportunities in Special Education
- School Counselor Roles
- Therapy and Learning Support Careers
- Freelancing Opportunities
- Final Practical Discussion
- Q&A and Feedback Session
